

Covid-19 EGOpro Social Distancing

A technological solution to maintain proper distance and avoid gatherings.

#DISTANTBUTNEAR

At this time, and for a long time, it will be essential to keep the right distance and avoid gatherings, particularly in places such as malls, business companies or public offices.

EGOpro Social Distancing | a solution to maintain proper distance between people and avoids gatherings minimizing the risk of CODIV-19 infection

SAFETY BUBBLE

Keep yourself distant from the infection

LIGHT VERSION

Smart solution for social distancing

PLUS VERSION

Solution for social distancing, access control, people counting and alarm management

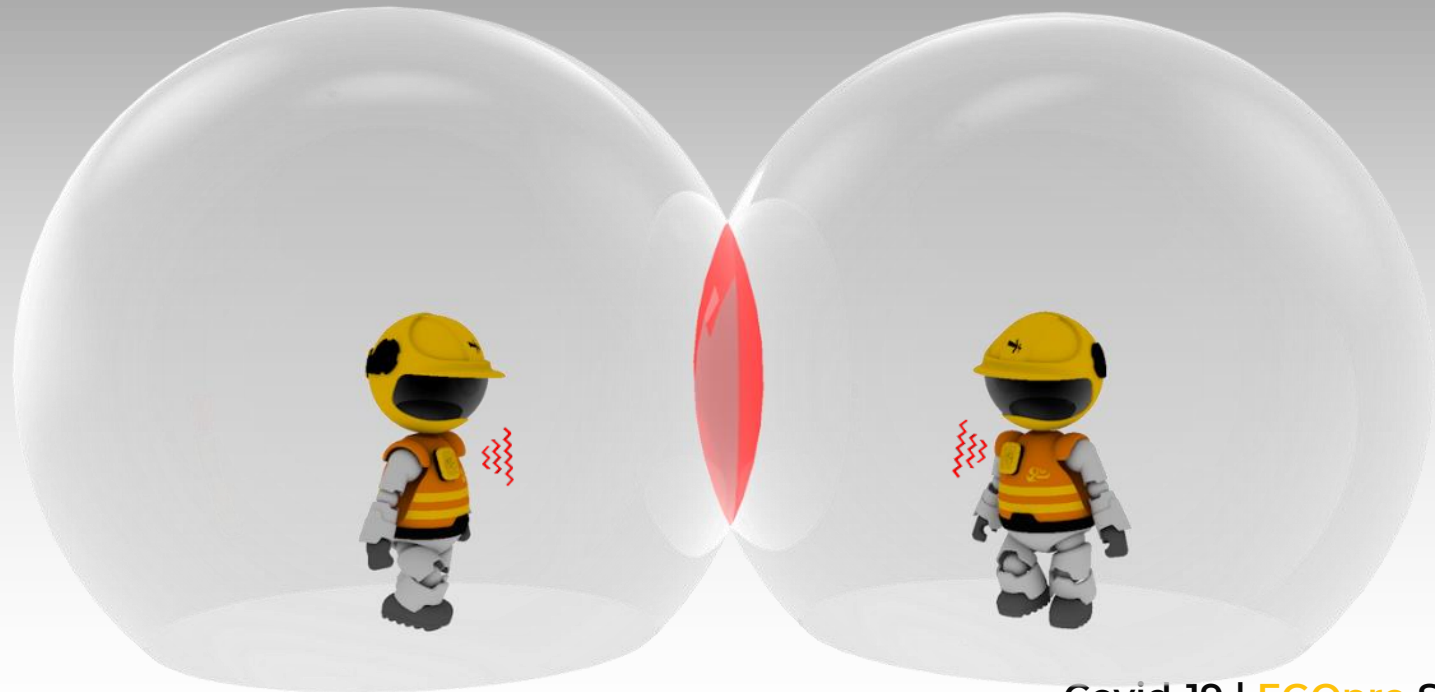

How can **EGOpro** Social Distancing help malls, business companies and public offices?

LIGHT VERSION: SENDS AN ALERT IF DISTANCE IS NOT RESPECTED

Measurement of distance between people, warning when they get too close each other. When two persons get below the minimum safety distance, the TAGs vibrate and their LEDs flash.

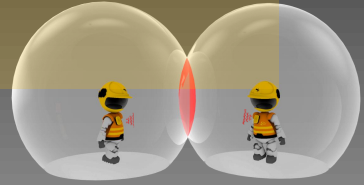

NO Sensors groundwork

Just the EGOpro Active TAG is needed

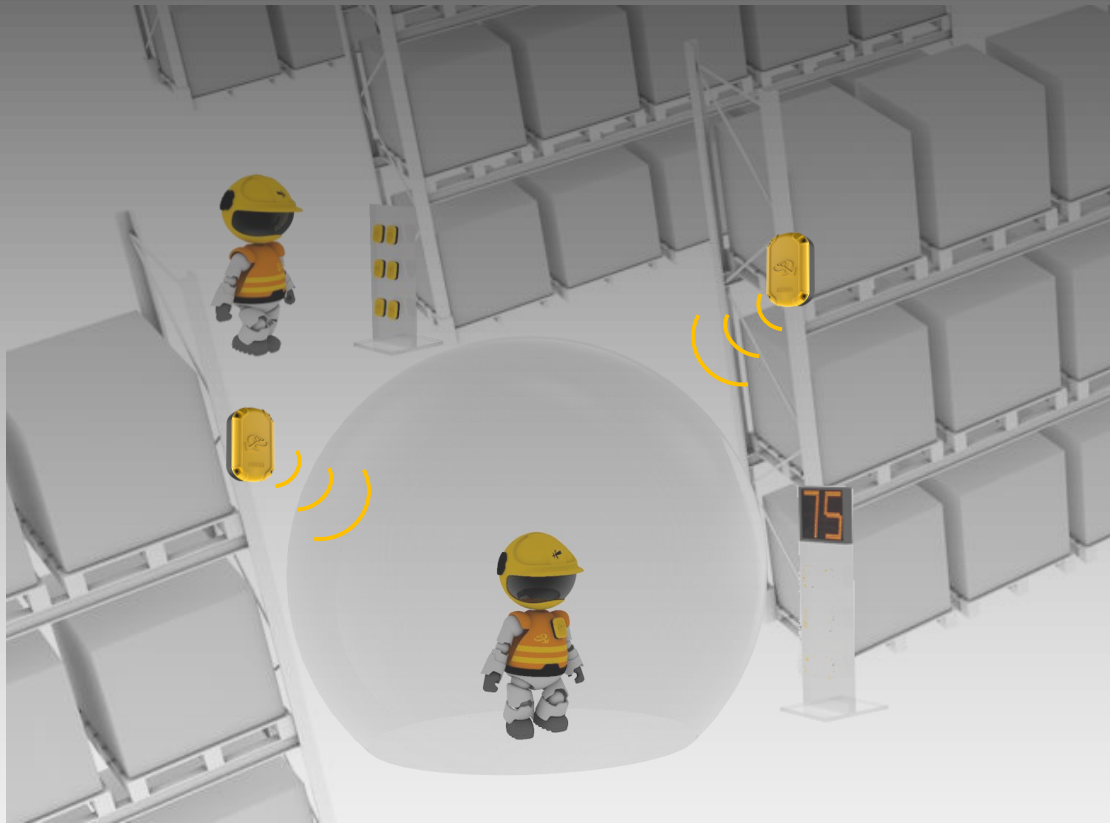

What does EGOpro Social Distancing Light allow to do in supermarkets, companies, offices or public facilities?

LIGHT VERSION: LIGHT ACCESS CONTROL

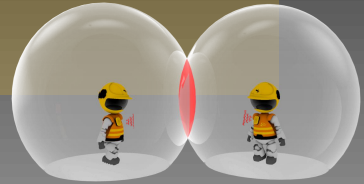

Through the installation of a virtual gateway, it is possible to carry out a HandFree access control and people counter without the need for physical barriers.

- ✓ Checking the number of people inside the structure.

What does EGOpro Social Distancing Light allow to do in supermarkets, companies, offices or public facilities?

LIGHT VERSION: REGISTRATION OF EVENTS ON THE TAG

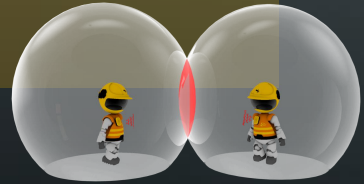

All "risk-contagion" alarm events that occurred during the work shift can be recorded on the Tag.

Data download takes place wirelessly at a special location. When the TAG is approached to the sensor, the information of the number of contacts risks is downloaded.

What does EGOpro Social Distancing Light allow to do in supermarkets, companies, offices or public facilities?

LIGHT VERSION: EGOpro MANAGER

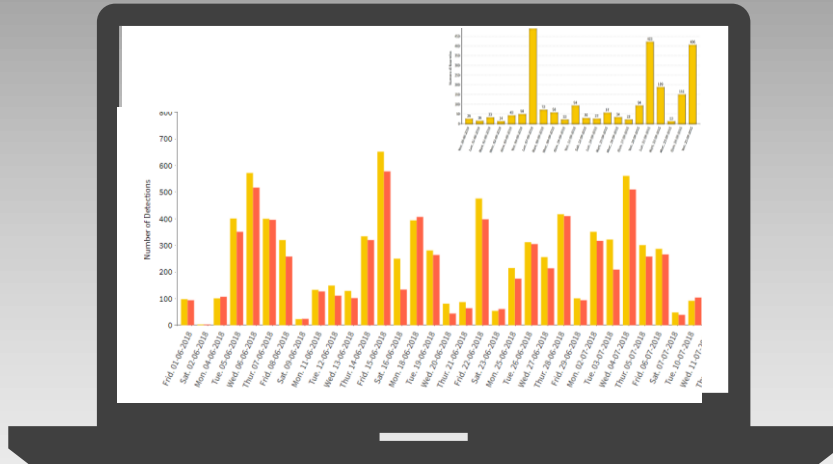

The data can be processed through the EGOpro MANAGER software which allows you to analyze the events of interaction between people.

EGOpro Manager is able to produce reports that highlight how many times in a day each single TAG has violated the minimum allowed distance or even weekly reports.

What does EGOpro Social Distancing Light allow to do in supermarkets, companies, offices or public facilities?
